

Take Quiz

- check access : This will fetch data from persistence to check accessibility of a user.
 - student and time
 - limit number of attempts
- navigate questions
- record/modify answers until submission
- suspend attempt for later completion/submission
- record all complete or incomplete attempts

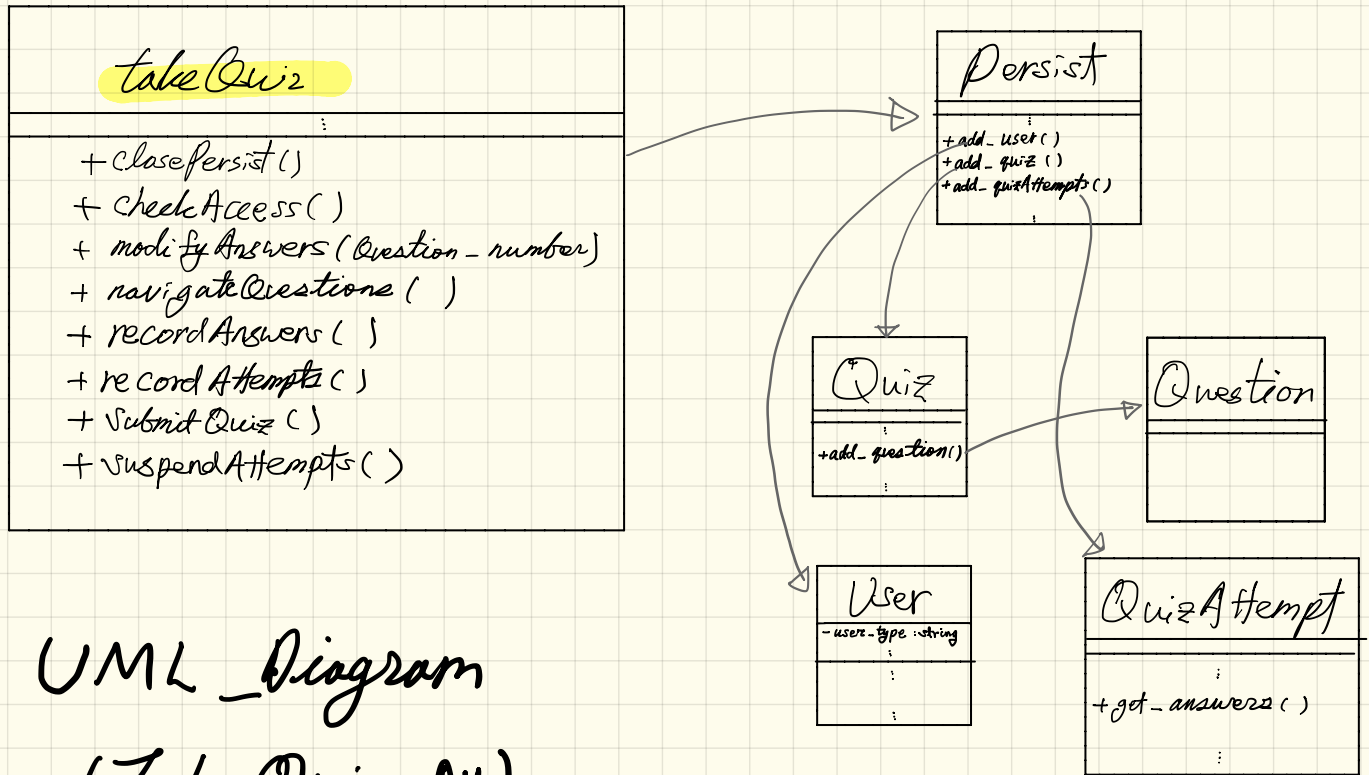

This will retrieve all questions of a quiz and show them to a user so that the user can proceed the quiz

store or modify answers of a quiz
This will send answers to the persistence, but submission status won't be changed unless the quiz is submitted.

This will set submission status to "not submitted" in persistence

This will send attempts to persistence.

1. The user must be student
2. The time at the moment must not later than the time set by a quiz creator.
3. The # of attempts must be less than or equal to the # of attempts that is set by an instructor.
